To whom it may concern

Food Contact Status Summary

Lewatit[®] IN 42

December 16, 2016

Regulation (EC) 1935/2004:

Above-mentioned product, when used under normal or foreseeable conditions of use, meets the relevant requirements laid down in Regulation (EC) 1935/2004.

Regulation EU/10/2011:

Above-mentioned product fulfils the harmonized requirements on plastic materials and articles intended to come into contact with food as described in the Regulation (EU) 10/2011 amended up to Regulation (EU) 02/2014.

No monomers subject to Specific Migration Limit (SML) are used.

No additives subject to restriction (Specific Migration Limit or Quantitative Maximum) are used.

Calcium stearate is approved as direct food additive. It is present, as additive, in the above grade.

Federal Republic of Germany:

The amended German "**Ordinance on Consumer Goods**" of 24/06/2013 (Federal Law Gazette, part I, page 1682).

Conditions – Overall Migration Limit:

According to Regulation (EU) 10/2011 (Annex III and Annex V), the overall migration limit, for which a maximum value of 10 mg/dm² or 60 mg/kg is set (Regulation (EU) 10/2011, article 12), has to be controlled on the finished articles intended to come into contact with foodstuffs; consequently it is the responsibility of the downstream user of the above-mentioned product.

FDA:

Under 21 CFR 177.1520 (c) 1.1a **Lewatit® IN 42** may be safely used in articles or components of articles intended for use in contact with food.

All adjuvants used in the manufacture of this resin are cleared for use in 21 CFR 170-189 by specific citation, generally recognized as safe (GRAS), prior sanctioned or under a specific Food Contact Notification (FCN). No further restrictions apply to the finished polymer.

Drinking Water Contact:

The product has a test certificate according to the KTW-Guideline and is tested according to DVGW 'Arbeitsblatt W 270'.

Please note:

It pertains to downstream users of materials intended to come into contact with food, to ensure that the final materials or articles do not bring about an unacceptable change in the composition of the food, or bring about deterioration in the organoleptic characteristics which render it unfit.

The user of **Lewatit® IN 42** is responsible to check the ability of the resin for the intended use and **Lewatit® IN 42** must be pre-treated by the user in accordance with the manufacturer's instructions.

Lewatit® IN 42 corresponds with the technical data and recommendations given in the relevant Lewatit Product Information and Technical Information.

For further information concerning the application, please contact your local LANXESS Affiliate.

Yours sincerely,
LANXESS Deutschland GmbH
